This includes the destruction of 90% of California's riparian forests and ongoing pollution in a vast majority of waterways. The good news is that all Californians, from private landscapers to conservation groups to public agencies, can do a lot to restore these damaged places. We make it easier to restore our vital natural resources in a changing climate by partnering with government, MoSo and other restoration proponents to develop regulatory and policy incentives that accelerate the pace and scale of habitat restoration statewide. <u>Sustainable Conservation</u>

Employer identification number 94-3232437

Form 990, Part I, Line 1 - Organization Mission or Significant Activities

Sustainable Conservation helps California thrive by uniting people to solve the toughest challenges facing our land, air and water. Every day, we bring together businesses, landowners and government to steward the resources that we all depend on in ways that are just and make economic sense.

Form 990, Part III, Line 1 - Organization Mission

Sustainable Conservation (the organization) partners with business, agriculture and government to find practical ways to protect California's land, air, and water through collaboration. The organization's work has spanned rural and urban environmental issues, ranging from improving water quality in dairy farming, to promoting the growing and selling of non-invasive plants in California's horticultural industry, to partnering with farmers in California's San Joaquin Valley on regional solutions for ensuring adequate groundwater supplies. The organization works with farmers to identify ways that producers can protect the environment, improve their bottom lines, and keep their land in production. The organization also works to overcome the time, complexity, and cost associated with habitat restoration projects on public and private land. Lastly, the organization works with business and regulatory agencies to ensure a more sustainable water supply for farming and communities.

documentation. If changes to the form are requested, a revised copy is reviewed by management and sent to the committee. The committee approves the filing and makes a recommendation to the full board to ratify the filing at the next board meeting.

Form 990, Part VI, Line 12c - Explanation of Monitoring and Enforcement of Conflicts

The organization requests all board members to sign a conflict of interest statement once a year.

Form 990, Part VI, Line 15a - Compensation Review & Approval Process - CEO & Top Management

The Governance Committee is composed entirely of people that have no conflict of interest with Sustainable Conservation, its officers/key employees or its compensation arrangements. It is responsible for conducting the performance and compensation review of the Executive Director. The performance review process includes a self-review by the Executive Director, discussion with the committee and a discussion amongst the committee, then by the board. A written performance review is included in the personnel file of the Executive Director. The committee also reviews compensation information of comparable position at environmental organization of similar sizes in the bay area and makes a compensation recommendation to the full board. The full board then discusses the recommendation and decides on the compensation annually and a record is put in the Executive Director's personnel file. Executive Director's last compensation review was in 2020.

Form 990, Part VI, Line 19 - Other Organization Documents Publicly Available

The organization's governing documents, conflict of interest policy and financial statements are available to the public upon request.
